

SMART METER OPT-OUT

AVAILABILITY

Any Customer who chooses not to have a standard wireless smart meter installed on their premises may select to have an electro-mechanical meter installed and shall pay the applicable billing rates described below.

BILLING RATES

Initial Charge

\$35.00 per electro-mechanical meter installed. The Initial Charge will appear on the Customer's first bill following the date the Customer enrolls in the Smart Meter Opt-Out Program.

Recurring Monthly Charge

\$21.50 per meter, per monthly billing period.

TERMS OF SERVICE

The Customer will be subject to the charges outlined above each time service is established at a new premise location. If the Customer has multiple meters that are not standard wireless smart meters and the energy usage registered on those meters is totalized into one bill, with one Customer charge, the Customer shall pay a single Initial Charge and Recurring Monthly Charge. For all other multiple meter situations, the Customer shall pay an Initial Charge and Recurring Monthly Charge for each meter that is not a standard wireless smart meter.

Customers choosing to convert to a standard wireless smart meter from an electro-mechanical meter will not be charged for the conversion. The Customer remains responsible for any unpaid opt-out charges incurred by said Customer prior to conversion to a standard wireless smart meter.
